**Incident Summary**

Brendan Martin with The Environmental Protection Agency (EPA), Region 7, called the Environmental Emergency Response (EER) Line to report that a caller to the EPA Spill Line had reported a potential mercury release at Alameda Towers in Kansas City, MO. The release allegedly occurred in the machine room on the 20th floor sometime between December 2021 and December 2017. The duty officer has tried to contact the original caller to obtain a more precise timeline but has not yet been successful. EER is responding.
